*Established in 1897 KOEMMERLING is today a major supplier to the marine, transportation, insulating glass, photovoltaic and specialty construction industries.*

*For the boat, ship and yacht construction KOEMMERLING offers a wide range of adhesives and sealants for both interior and exterior applications. These products have been specially developed for the*

*Marine market and are characterised by their improved UV stability, improved slump resistance, ease of application and Wheelmark certification.*

*The KOEMMERLING Marine range includes 1-part Polyurethanes (Koerapur Marine), 1-part MS Polymers (Koerapop Marine) and 2-part-Polysulphide sealants (Koeraflex Marine) for Deck Caulking.*

*It is complemented by our well known range of adhesives and sealants for industrial applications and vehicle manufacturing and allows us to offer a complete product portfolio.*

*Thus KOEMMERLING is able to meet the strong demands of the market and its customers for high performance products and service.*
